LIFEWISE ELEMENTARY CURRICULUM

Scope and Sequence

Introduction

In partnership with The Gospel Project, LifeWise Academy provides a high-quality, gospel-centered curriculum. It is a five-year chronological journey from Genesis to Revelation. Each local program receives access to the entire curriculum library, as well as options for customizing the lessons for that community.

Customization

The five-year curriculum should be used in the classroom when possible, as it provides the most detailed teaching of the Bible. However, there are some situations that may require an abbreviated version of the curriculum. For this reason, LifeWise has created a scope and sequence with guidance to help you choose which lessons to teach with only 4, 3, 2 or 1 year(s) available. The colored stars in each year's column indicate the suggested lessons to teach for those abbreviated time frames. However, you may customize the number of lessons even further to fit your program's instructional time and student needs.

General Instructions

- Structure
  - Each lesson's title follows the same pattern: LifeWise Lesson #: Title
    - *Example:* LWL 1**:** God Created the World
  - The "LWQ" column stands for the LifeWise Quality highlighted throughout the lesson
- Lesson Numbering
  - LWL 1 stands for LifeWise Lesson 1, LWL 2 for LifeWise Lesson 2, etc. These are the official numbers to identify each lesson and are identical across all curriculum paths.
- Special Lessons
  - "Special Lessons" (SL1-7) are located at the beginning of each list of lessons. There are three Christmas, two Easter, an introduction to the Bible and a review lesson for teachers to use at any time appropriate for their lesson schedule.
